
PREPARATION AND APPLICATION PROCEDURE

ASPHALT SHINGLES

FINISH

Procedure:

- Applying TexNov Acrylic Coating to the roof shingle will extend the lifespan of the roof. However, this procedure only applies on roof in well shape. Please do not apply our coatings on damaged asphalt shingles.

Maintenance: *Clean the surface with* ***TexNov Surface Preparer*** *(3 water / 1 Preparer).*

⚠ CAUTION

Never place rubber mats on an acrylic floor even if there is a sealer. Accumulated moisture could affect the acrylic coating.

Do not use magnesium chloride (de-icing salt) on surfaces with acrylic coating as it could damage your surfaces including concrete.
